SMALL INVESTMENT TO FULFILL OUR FINANCIAL GOALS...

FULFILL YOUR GOALS IN LIFE...

It is sensible to save money for family's financial goals and keep them financially secure. The negative effects of inflation will hardly leave us with anything in the end if we choose to save money in bank deposits or any other saving instruments that offers very less returns*, while an investment with good returns will keep us financially secure. By investing our savings, in the right asset class for long term, we can ensure financial security for the future of our Family.

START EARLY

GIVE TIME TO YOUR INVESTMENT RATHER THAN TIMING AND BENEFIT FROM THE 'POWER OF COMPOUNDING'

Systematic investing has a compounding effect on your investments. In the long term, an investment as low as ₹ 10,000/- per month swells up into a huge corpus. This can be best explained by the following graph. The graph shows advantages of starting early. If an investor starts early, even with lower invested amount he can create a large corpus.

The above example is merely an illustration to explain the benefit of investing at an early age. Returns are assumed at 15% CAGR. Assumed that SIP investment are done regularly every month. No guarantee or assurance of return is being offered by any mutual fund or NJ. The actual result may vary from depicted results depending on scheme selected.

FULFILL YOUR GOALS IN LIFE...

RIGHT ASSET CLASS

EQUITY MARKET HAS OUTPERFORMED ALL OTHER INVESTMENT AVENUES

Growth in Different Asset Classes from March 1981 - March 2018

Source: Gold-Handbook of Statistics on Indian Economy, RBI. Silver - Handbook of Statistics on Indian Economy, RBI. Sensex - www.bseindia.com, Co Deposits - assumed (1% higher than Bank FD Rate). Bank Deposits - Handbook of Statistics on Indian Economy, RBI. Inflation(WPI) - Handbook of Statistics on Indian Economy, RBI

It is evident from the graph that in the long term, equity investments have outperformed other investment avenues and has beaten inflation by a huge margin.

INVEST REGULARLY

DISCIPLINED INVESTING THROUGH SIP

Every investor dreams of buying at a low price and selling at a higher price. But, how does one know whether any given time is the right time to buy or sell? Many retail investors try to judge the market movements and end - up losing their money in the long term.

A more successful strategy is 'Rupee Cost Averaging' wherein you invest a fixed amount regularly. Thus you purchase more when the prices are low and purchase less when prices are high. SIP investments takes advantage of this strategy.

Month	NAV (₹)	Mr. SIP investor		Mr. One Time Investor	
		Amount Invested (₹)	Units Bought	Amount Invested (₹)	Units Bought
1	10	1000	100.00	4000	400
2	8	1000	125.00	0	0
3	9	1000	111.11	0	0
4	11	1000	90.91	0	0
Total units accumulated		427.02		400	
Value of investment (₹)		4697.22 @ NAV ₹11		4400 @ NAV ₹11	
Avg. price / unit		9.36		10	

The above example is merely an illustration of 'Rupee Cost Averaging'. The NAVs and returns generated are purely indicative and do not depict the performance of any mutual fund scheme. The actual results may vary from the depicted figures. No guarantee or assurance of return is being offered by the Mutual Fund or NJ.

SYSTEMATIC INVESTMENT PLAN (SIP) AN IDEAL WAY TO REDUCE RISK

AVERAGE COST PER UNIT < AVERAGE PURCHASE PRICE PER UNIT

FULFILL YOUR GOALS IN LIFE...

TIME IS IMPORTANT

MARKET TIMING DOES NOT MATTER OVER THE LONG TERM

"Best market timing (almost impossible) has yielded less than 2% additional return than systematic investment. Time to go systematic."

POWER OF COMPOUNDING

Albert Einstein once noted that the most powerful force in the universe was the principle of compounding. In investing, this manifests itself through something called compound interest. Put in its simplest terms, the phrase compound interest means that you begin to earn interest income on your interest income, resulting in your money growing at an ever-accelerating rate.

SYSTEMATIC INVESTMENT PLAN (SIP)

Systematic Investment Plan (SIP) is a tool that allows you to invest in mutual funds through small, periodic instalments.

SIPs help you set aside a fixed amount every month for investments thus contributing towards your goals. For Investment purpose, we often wait to collect a large amount of money and investment it all at once. Through **SIP** you can start with smaller amount on a monthly basis and create wealth over the long term.

FULFILL YOUR GOALS IN LIFE...

BENEFITS OF SIP

- ▶ Imparts financial discipline to life
- ▶ Invest irrespective of market conditions
- ▶ Cost averaging helps neutralise market volatility
- ▶ Get benefit of “Power of Compounding”

Each Drop of Water is essential to make a Mighty Ocean. Every Rupee Saved is a Rupee Earned to Secure the Future.
